Highlights

Turn Up The Heat is a charity dinner prepared with culinary expertise by Members of Canadian Women In Food.

On the evening of Thursday March 5th, guests will experience the geniuses and cuisine re-definers in action as we feature great female Chefs of our time.

Objectives

We believe passion is a valuable force for action and accountability, and we are looking to inspire passionate conversations and support for our charity partners and their commitment to women's programs, food security, and family.

You'll notice in the design of our event logo, the flames are of 2 female hands. This symbol resembles a torch, which is typically associated with enlightenment, hope, and life - all of which we believe the female food industry can bring to the world.
